Charity Shopping

www.spielmaterial.de supports the above mentioned organizations. The total revenue from this area is donated. Thank you for your support!

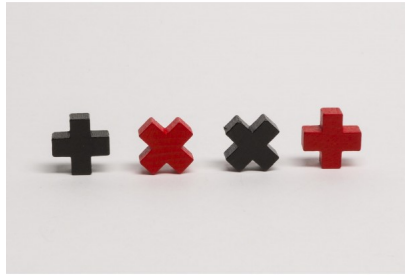

Unicef, WWF and SOS Children's village will be known by you. We support the children's village in Tbilisi/Georgia. German Doctors is a humanitarian organisation that provides medical help wherever needed in the world. The association Zornroschen is a center in our city Moenchengladbach/Germany, which helps sexually abused children. The German Children's Cancer Foundation is actively supporting affected children and families to have the same quality of life and future potentials. Favela Painting is the name of a series of community artwork in Rio de Janeiro, Brazil painted by Dutch artists Jeroen Koolhaas and Dre Urhahn with the help of local people. The dreadful surroundings of the slums have been transformed into an artwork (painting buildings, streets, bridges). A likewise project has been realised in a ghetto in Philadelphia. Aim of Gänseblümchen NRW e.V. is to support cancer affected children and their families. Ocean Cleanup is a project for reducing the huge amount of plastic parts in the oceans. The organisation OneDollarGlasses is providing glasses to people, who cannot afford regular ones. Hephata is an organization that provides work and assisted accommodation for disabled persons. The employees of Hephata often do picking work for us.
